An easy to use software that reduces time and costs for HR managers. Designed for all: It can be used by both small and large companies. Professional assistance is available. Added support for managing maternity leaves. EasyTimeOff Screenshots: EasyTimeOff review: EasyTimeOff empowers Human Resources Department with the ability to handle employees' personal data and timetable faster. By organizing work schedule with a summary, HR managers can spend less time managing bookings and more time focusing on keeping the company running smoothly. The application can also be used by a team of any size as a good resource for sharing information with co-workers. EasyTimeOff is a well laid out and user friendly option in the HR management sector. EasyTimeOff is an ideal utility for small and midsize company that empower HR department with a set of tools and resources to work with your employees efficiently, accurately and at the best pace. EasyTimeOff can organize database by employees, availability, leave and pays, holidays, maternity. It is a simple and well laid-out option in the HR management area. EasyTimeOff is a very smart choice for business executives and HR managers that want to reduce time and cost for HR managers. EasyTimeOff is a very user-friendly program that covers all the needs of those who want to work with their employees on a daily basis. It is ideal for small and midsize companies that want to save money and time on personnel resources. This is a time tracking and attendance software. It is very easy to use and does the job. Can do payroll with this software. Automatically adjusts if employee makes a change to another employer. Does emailing reports to other staff members. Needs work when entering time. None of those programs that just work for 30 seconds and leave you with all of the other problems. I believe it is great for smaller companies. I also think that it would be better if it included a calendar so the employee could put their vacation days for example on a specified date rather than the program wanting to know when they are going to be off. What was good: Great for small to midsize businesses. The programs are user friendly. What was not so good: An easy to use interface would be nice. To be able to add notes when an employee is off work would be really helpful for the employees. This program is very useful for businesses of all sizes. This

EasyTimeOff Torrent Download is a sophisticated yet accessible application designed primarily for company managers and owners to keep track of all the employees and their personal information, along with labor costs, attendance, holidays and sick leaves for each individual. Plus, you can generate detailed reports based on distinct criteria. Set up the business contact data using an easy-to-use layout The utility is wrapped in a well-organized and intuitive interface, which differs from an option to another. The home screen is divided into a quick view and six different sections namely, company setup, add/ change employee, time off, reports and make up time. When the program is started, the company details need to be added, like name, address, city, state and zip code, as well as included days in the work schedule and the maximum amount of work hours. In addition, you can set up a password for increased protection, which is recommended, but not mandatory. Maintain and update personal info, and create summaries The next step is to enter each staff member by inputting their ID number, full name, hire and end date if it's the case, followed by the allowed number of days for vacation, holiday and sick leaves. If a worker needs some time off you have to select the beginning and ending date and time interval, the reason, paid or unpaid holiday and optional notes. A person can have more than one leave and are displayed in the small table at the bottom of the window. What's more, is that the tool comes with a detailed list of filters, which can be disabled for a more refined search in the database. Some examples are hire date, last name, ID, status and various reasons. It's possible to export the reports to PDF, XLS and CSV files

for further manipulation. On ending note Taking everything into account, EasyTimeOff is a reliable and user-friendly utility that comes in handy especially for the Human Resources department to insert and manage employees information, as well as monitor maternity leaves, holidays and personal vacations for each person and generate reports.
