### What's New in the Trojan.PWS.OnlineGames.KBVT Remover?

Version: Date: Owner: Time: The objective of the Trojan.PWS.OnlineGames.KBVT Remover is to steal your account information from the popular online games: - MapleStory - Age Of Conan - Rohan - The Lord Of The Rings - Knight Online - Lands Of Aden - (others) After the infection is done, the user will see the following pop-up window: Click on OK button to continue... Trojan.PWS.OnlineGames.KBVT Remover must be uninstalled before the antivirus software can remove it.

Trojan.Ransomware.Jigsaw is a malicious application that gains control over your computer after executing. Once it gets installed on your PC, it will start encrypting your documents. The user will see a pop-up message upon every attempt to open a document. This pop-up message doesn't show up when you attempt to open documents on the Portable Media Centers. Once a ransom request is made, the user has only two choices: pay the ransom or lose all of the files that were encrypted.

Trojan.Ransomware.Jigsaw Description: Trojan.Ransomware.Jigsaw is a malicious application that gains control over your computer after executing. Once it gets installed on your PC, it will start encrypting your documents. The user will see a pop-up message upon every attempt to open a document. This pop-up message doesn't show up when you attempt to open documents on the Portable Media Centers. Once a ransom request is made, the user has only two choices: pay the ransom or lose all of the files that were encrypted. Infection methods: 1. A Trojan horse that is designed to install itself silently on the PC without the user's consent. 2. An email that is infected with a malicious attachment. 3. Downloading a malicious file from the Web. Symptoms: The most common symptoms of Trojan.Ransomware.Jigsaw infection are slow PC performance and unwanted pop-up messages. Among other symptoms, PC performance slow down is related to programs that are using a lot of system resources. Trojan.Ransomware.Jigsaw may also make you lose a lot of privacy because some of the encrypted files store your browsing history, the list of e-mail addresses, instant messages, passwords, etc.[Social adaptation after polytraumatization].
